*and*  
DAILY  
REMINDER

Lives of great men all remind us,  
We can make our lives sublime,  
And, departing, leave behind us,  
Footprints on the sands of time.

Footprints, that perhaps another,  
Sailing o'er life's solemn main,  
A forlorn and shipwrecked brother,  
Seeing, shall take heart again.

### Air Mail Rates and Regulations

**WHAT CAN BE MAILED:** Any matter acceptable in the regular mails unless liable to damage from freezing.

**WHERE TO MAIL:** Air Mail may be posted in any mail box or other place provided for the receipt of ordinary mail. Deposit should be made in ample time to allow transmission to the landing field.

**SPECIAL STAMPS:** The public is urged to use the special Air Mail stamps, but ordinary postage may be used. Air Mail and Special Delivery Stamps are not accepted for other than use specified.

**SPECIAL ENVELOPES:** Ordinary envelopes may be used, but they must be prominently endorsed "AIR MAIL" above the address. The Post Office Dept. has authorized and recommended specially printed envelopes bearing three broad stripes in blue, white and red across the face. Such distinctive marking insures proper handling at terminals, especially when a portion of its journey is by rail.

**NOTE:**—Special Air Mail envelopes must not be used for other than Air Mail.

**CLASSIFICATION OF AIR MAIL:** There is no distinction between the usual classifications. All mail receives the same handling and takes the same rate as specified below.

**RATES OF POSTAGE:** The Air Mail postage rates are eight cents for the first ounce and thirteen cents for each additional ounce, regardless of distance or routes traversed. This includes all necessary rail transportation to or from post offices not located on Air Mail routes.

## RULES FOR SPELLING

Words ending in *e* drop that letter before the termination *able*, as in move, movable, unless ending in *ce* or *ge*, when it is retained, as in change, changeable, etc.

Words of one syllable ending in a consonant, with a single vowel before it double that consonant in derivatives, as ship, shipping, etc. But if ending in a consonant with a double vowel before it, they do not double the consonant in derivatives; as troop, trooper, etc.

Words of more than one syllable ending in a consonant preceded by a single vowel, and accented on the last syllable, double that consonant in derivatives; as commit, committed; but except chagrin, chagrined.

All words of one syllable ending in *l*, with a single vowel before it, have double *ll* at the close; as mill, sell.

All words of one syllable ending in *l*, with a double vowel before it, have only one *l* at the close as mail, sail.

The words foretell, distill, instill and fulfill retain the double *l* of their primitives. Derivatives of dull, skill, will and full also retain the *ll* when the

accent falls on these words; as dullness, skillful, wilful, fullness.

Words of more than one syllable ending in *l* have only one *l* at the close; as delightful, faithful; unless the accent falls on the last syllable; as in befall, etc.

Words ending in *l*, double that letter in the termination *ly*.

Participles ending in *ing*, from verbs ending in *e*, lose the final *e*; as have, having; make, making; etc.; but verbs ending in *ee* retain both; see, seeing. Dye, to color, and singe, to scorch, however, must retain the *e* before *ing*.

All adverbs ending in *ly* and nouns ending in *ment* retain the *e* final of the primitives; as brave, bravely; refine, refinement; except words ending in *ge*; as judge, judgment.

Nouns ending in *y*, preceded by a vowel, form their plural by adding *s*; as money; moneys; but if *y* is preceded by a consonant, it is changed to *ies* in the plural; as bounty, bounties.

Words whose primitives end in *y* change the *y* into *i*; as beauty, beautiful.

## WHAT TO DO IN CASE OF ACCIDENT

**DROWNING.** 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately rising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils and pressing the "Adams' apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after hours of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give warm drinks, or spirits in teaspoonfuls, fresh air and quiet.

**BURNS AND SCALDS.** Cover with cooking soda and lay wet cloths over it. White of eggs and olive oil. (Olive or linseed oil, plain or mixed with chalk or whiting.

**LIGHTNING.** Dash cold water over person struck.

**SUNSTROKE.** Loosen clothing. Get patient into shade, and apply ice cold water to head.

**MAD DOG OR SNAKE BITE.** Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife.

**VENOMOUS INSECTS' STINGS** etc. Apply weak ammonia, oil, salt water, or iodine.

**FAINTING.** Place flat on back; allow fresh air and sprinkle with water.

**BLEEDING FROM WOUND.** If from an artery, stop the current of blood to the wound by putting a compress or cloth pad over the artery. Fasten it firmly by a handkerchief or bandage, which may be tightened by twisting in a stick as a binder. The location of the artery can generally be determined by the throbbing sensation. If from a vein, apply pressure directly over the wound or by exposure or application of cold water. Perchloride of Iron may be applied with cloth or lint. Keep the part elevated.

## POISONS

**GENERAL DIRECTIONS.** Give an emetic as soon as possible; tablespoonful of powdered mustard in a tumbler of warm water, or twenty grains of ipecac; after vomiting, give freely of warm drinks.

**SPECIAL DIRECTIONS.** In case of poisoning from Arsenic, Corrosive Sublimate, Verdigris, Blue Vitriol, and from Vegetables kept in copper vessels; give emetic and white of egg, sweet oil and milk.

**SUGAR OF LEAD.** Give emetic and epsom salt.

**Hemlock, Aconite, Belladonna and Fox Glove.** Give emetic, then tannin and stimulants.

**Opium, Laudanum and Morphine.** Give an emetic, follow with strong coffee or white of an egg. Keep patient walking two or three hours, and extremities warm.
